Git

## Profile

Goal oriented web developer with experience in both front and back-end development tasks. These include databases, website architecture, application logic & design, user experience, and creating new UI's based on predefined specifications.

## Education

### Google UX Design Professional Certificate, Coursera

JANUARY 2022 – JUNE 2022

- Recipient of the RISE scholarship, awarded by [The Mom Project](#)
- Participated in a virtual, sixth month certification program that included over 200 hours of instruction
- Completed hundreds of practice-based activities and assessments that simulate real world UX design scenarios

### Diploma of Computer Science and Full Stack Web Development, Holberton School, Tulsa

SEPTEMBER 2020 – JUNE 2022

- Completed a rigorous, fast-paced, software development curriculum focusing on project-based, peer learning in order to simulate a real working environment
- Consistently maintained a grade of 80% or higher
- Wrote relevant blog posts to practice verbalizing ideas and help retain new skill knowledge

## Professional Experience

### Web Design Intern, Reed Design Group, Mansfield

MARCH 2022 – PRESENT

- Ran competitive audits on assigned websites and critiqued what could be improved or changed
- Wireframed and prototyped new design ideas for websites
- Generated reports on project status

### Software Engineering Student, Holberton School, Tulsa

SEPTEMBER 2020 – JUNE 2022

- Participated in a hybrid learning environment, both online and on campus
- Engaged in project-based peer learning
- Completed a rigorous curriculum and consistently met project deadlines
- Remained professional with peers and staff in effort to simulate a real working environment

## Projects

### AirBnB Clone v4

JUNE 2021

Implemented a dynamic web application with many developers that utilized database storage, a back-end API, and a front-end build; using HTML, CSS, JavaScript, Python, Flask, and MySQL.
