## ◦ SKILLS ◦

User research and user strategy

Information architecture

Wireframing

Figma

Adobe XD

Prototyping

User testing

UI design

HTML5

CSS3

JavaScript

React.js

Responsive web design

## PERSON PROFILE

Empathy-driven problem solver with a background in both low and high level coding languages, and a passion to create meaningful products that are usable, enjoyable, equitable, and useful.

## PROFESSIONAL EXPERIENCE

### Web Design Intern at Reed Design Group, Mansfield

March 2022 — Present

- Ran competitive audits on assigned websites and critiqued what could be improved or changed
- Wireframed and prototyped new design ideas for websites
- Generated reports on project status

### Software Engineering Student at Holberton School, Tulsa

September 2020 — June 2022

- Participated in a hybrid learning environment, both online and on campus
- Engaged in project-based peer learning
- Completed a rigorous curriculum and consistently met project deadlines
- Remained professional with peers and staff in effort to simulate a real working environment

## EDUCATION

### Google UX Design Professional Certificate, Coursera

January 2022 — June 2022

- Recipient of the RISE scholarship, awarded by [The Mom Project](#)
- Participated in a virtual, sixth month certification program that included over 200 hours of instruction
- Completed hundreds of practice-based activities and assessments that simulate real world UX design scenarios

### Diploma of Computer Science and Full Stack Web Development, Holberton School, Tulsa

September 2020 — June 2022

- Completed a rigorous, fast-paced, software development curriculum focusing on project-based, peer learning in order to simulate a real working environment
- Consistently maintained a grade of 80% or higher

## ★ PROJECTS

### Spotify: UX Case Study

October 2021

As part of a team, completed user research while utilizing user persona & user flow maps to help identify pain points. Then, implemented potential solutions for a user problem by wireframing and prototyping new design ideas. Later, participating in user testing.

### High Level Website Analysis

March 2022

Critiqued and offered any initial insight on web design, then suggested what can be improved from a visual and functional perspective to better appeal to potential buyers. Later, ran a competitive audit on both direct and indirect competitors, created paper wireframes, and then prototypes in Figma.
